

エンプラの本・英語版（第2版）

（1999年4月）

A Booklet on Engineering Plastics (1999 Edition)

エンプラの本（第3版・1998年発行）を基に、1999年4月に発行された。

This booklet is based on the third edition of ENPURA NO HON, the Japanese-language version, which the members of Japan Engineering Plastics Technical Committee compiled and issued in 1998.

【CONTENTS】

1. INTRODUCTION

- 1-1 Classification
- 1-2 Definition
- 1-3 Brief history
- 1-4 General-purpose engineering plastics
- 1-5 Special engineering plastics
- 1-6 Development of new materials
- 1-7 Market demand in Japan

2. MORPHOUS PLASTICS AND SEMICRYSTALLINE PLASTICS

- 2-1 Influence of temperature on movement of molecules
- 2-2 Properties

3. THERMAL PROPERTIES

- 3-1 Influence of molecular structure on thermal properties
- 3-2 Heat resistance in practical use

4. MECHANICAL PROPERTIES

- 4-1 Viscoelasticity
- 4-2 Influence of temperature on mechanical properties
- 4-3 Creep phenomenon
- 4-4 Tensile properties
- 4-5 Flexural properties
- 4-6 Fatigue
- 4-7 Impact strength

- 4-8 Friction/wear properties
- 4-9 Hardness
- 5. CHEMICAL RESISTANCE
 - 5-1 Acid, Alkalis
 - 5-2 Organic solvents
 - 5-3 Steam
 - 5-4 Hot water
 - 5-5 Environmental stress cracking
 - 5-6 Others
- 6. ELECTRICAL PROPERTIES
 - 6-1 Insulation
 - 6-2 Dielectric break down voltage
 - 6-3 Dielectric constant
 - 6-4 Arc resistance
- 7. FLAMMABILITY
- 8. WEATHERABILITY
- 9. OPTICAL PROPERTIES
- 10. STANDARDS AND CERTIFICATIONS
 - 10-1 Plastic materials
 - 10-2 Electrical applications
- 11. PRODUCT SAFETY AND ENVIRONMENTAL PROTECTION
 - 11-1 Product safety
 - 11-2 Recycling
 - 11-3 Environmental protection
- 12. PRIMARY PROCESSING : MOLDING AND FORMING
 - 12-1 Primary processing methods
 - 12-2 Selection of method

12- Injection molding
3

12- Extrusion forming
4

12- Blow molding
5

12- Other processing methods
6

12- Computer-aided engineering(CAE)
7

13. SECONDARY PROCESSING : JOINING AND FINISHING

13- Joining
1

13- Machining
2

13- Surface finishing
3

14. APPLICATIONS

14- Automobile and other transportation
1

14- Electric/electronic appliances
2

14- Precision equipment
3

14- Industrial machine
4

14- Civil-engineering/ConstructionMachine
5

14- Medical equipment
6

14- Safety equipment
7

14- Food containers and food-processingMachines

8

14-
9 Office, household, and personal Articles

14-
10 Sports/Outdoor goods

APPENDICES

1. Abbreviated and chemical names of thermoplastic engineering plastics
2. Symbols for fillers and reinforcing materials
3. Brand names of engineering plastics as manufactured by the member companies of Japan Engineering Plastics Technical Committee
4. Directory of the member companies of Japan Engineering Plastics Technical Committee
